Who are we?

Jawharat Al-Awraq Factory is a leading and specialized manufacturer of paper cups and customized boxes for cafés, restaurants, and commercial businesses. Since its establishment, we have been committed to delivering high quality products that combine innovation, durability, and functional elegance, while fully adhering to safety and hygiene standards.

We integrate the latest printing and manufacturing technologies to provide products that meet our clients' expectations and reflect their brand identity. The factory is supported by a highly experienced team of engineers and technicians in the field of paper packaging, ensuring top-quality production and tailored solutions for every need.

At Jawharat Al-Awraq, we believe that packaging is not merely a means of protecting products, but an essential part of the customer experience. Therefore, we focus on designing our products with care to be attractive, easy to use, and capable of adding real value to every item presented.

Our vision

Jawharat Al-Awraq Factory we strive to be the first choice in the field of innovative and sustainable paper product manufacturing in both the local and regional markets. Our vision is to deliver a fully integrated customer experience that combines high quality, aesthetics, innovation, and professionalism in every product we create.

Our mission is to provide innovative and customized solutions in the field of paper cups and boxes, ensuring the highest standards of material and manufacturing quality. We aim to build lasting trust with our clients by delivering superior products that are punctual, fully aligned with their requirements, and contribute to the success of their businesses through distinguished, practical packaging that adds value to every product.

Types Printing

01

• Digital Printing

It is a modern printing technology that transfers the design directly from the computer to the printer without the need for plates. It is characterized by high speed and precision, and is typically used for small quantities or custom orders, allowing for individual customization of each printed piece.

02

• Flexographic Printing

It is a modern printing method that uses flexible cylinders to transfer ink onto various surfaces such as paper, plastic, or cardboard. It is characterized by the ability to print large quantities at high speed, while maintaining excellent color quality and detail.

03

• Offset Printing

It is the most common type of printing in commercial production, relying on transferring ink from a metal plate to a rubber cylinder and then onto the desired surface. It is characterized by high precision and consistent quality, making it the ideal choice for large-volume printing with perfect clarity in details and colors.

Another type of printing

Cup Printing with Multi-Color Embossed Logo (Gold – Silver – Black)

Paper cups

- **Single Wall Cups**

Single-layer paper cups designed for serving hot and light beverages. They are lightweight and easy to use, with the option for custom printing to feature your brand identity or logo. **(High -quality image of colorful paper cups with the factory logo)**

- **Double Wall Cups**

Double-layer paper cups that provide excellent thermal insulation, keeping beverages hot while protecting hands from heat. Perfect for cafés and premium hot drinks, with the option for multi-color printing and branded logos. **(Image of luxury double-wall paper cups with gold or silver logo)**

Other Paper Types for Printing

Silver Metallic – can be applied to the exterior or interior of the cup

Gold Metallic – can be applied to the exterior or interior of the cup

Paper cup sizes

(9 oz)

The ideal choice for cafés serving medium-sized beverages such as coffee, cappuccino, and latte. This size offers the perfect balance between volume and comfort, making it suitable for daily use in cafés and restaurants. It allows you to serve a sufficient amount of beverage to customers while maintaining a convenient and enjoyable experience, and can be customized with a distinctive design that reflects your brand identity.

(7 oz)

The ideal choice for cafés that wish to serve medium-sized beverages, such as Turkish coffee, flat white, cortado, or filtered coffee. This size offers a comfortable serving, providing a pleasant coffee-drinking experience without being too large. It is perfect for cafés serving specialty or grab-and-go drinks and can be customized with a unique design that reflects the brand identity.

(4 oz)

Perfect for serving Arabic coffee, espresso, strong coffee, or quick beverages and for product sampling. Especially suitable for premium coffee or sample servings, offering a convenient option for brands that want to present a small-sized, high-quality product.

Paper cup sizes

(12 oz)

The ideal choice for cafés serving large beverages such as V60 coffee, black coffee, cold brew, or daily specials like karkadeh. This size provides ample capacity to serve a rich and flavorful drink while maintaining a comfortable drinking experience for customers. It is the perfect cup for cafés that want to offer larger beverages with a modern and luxurious design that reflects the professionalism of the brand.

(10 oz)

The ideal choice for cafés serving balanced beverages such as American coffee or tea. This size provides an optimal volume for daily drinks, offering ease of handling and use. It is a practical option for cafés and restaurants that prefer serving large beverages comfortably. It can be customized with premium designs that align with the brand identity and provide a distinctive experience for customers.

Double-layered cup

Carefully crafted to provide the perfect experience with your hot or cold beverages. The double walls offer exceptional thermal insulation, keeping your drink at the ideal temperature for longer while protecting your hands from heat during use.

Combining elegance and practicality, its modern design and high-quality construction make it an ideal choice for offices, cafés, and everyday use. The cup also features a sturdy base, ensuring excellent stability during use.

Single Wall Cup

Designed for a simple and enjoyable hot or cold beverage experience, this single wall cup is lightweight, practical, and ideal for everyday use. Its quick temperature transfer, modern minimalist design, and durable construction make it suitable for offices, cafés, and events, while the stable base ensures comfortable and balanced use.

• **Available in All Sizes:**

4, 7, 9, 10, and 12 oz to suit various needs.

BOX Coffee

The 1-liter and 2-liter coffee carafes are the ideal choice for cafés and restaurants serving large quantities of coffee to customers. These carafes provide a practical way to maintain coffee at the perfect temperature for extended periods, making them perfect for events, meetings, or any setting where continuous hot beverage service is needed.

Designed for convenience, the carafes are easy to carry and pour from, while their large capacity allows cafés to serve multiple servings without the need for constant preparation. Available in various sizes to meet your customers' needs, they are a perfect addition for delivering an exceptional coffee service anytime.

The inner bag effectively insulates heat, keeping the coffee at the ideal temperature for longer, allowing customers to enjoy their hot beverage at any time of the day without the need for frequent preparation.

Food and dessert boxes

Food and dessert boxes are the ideal solution for serving fast food and sweets in an elegant and practical way. These boxes feature versatile and flexible designs suitable for various types of food and desserts, whether sandwiches, pastries, or sweets. Available in different sizes and shapes, they cater to the specific needs of each type of food or dessert, making them an excellent choice for events, delivery, or daily use in cafés and restaurants.

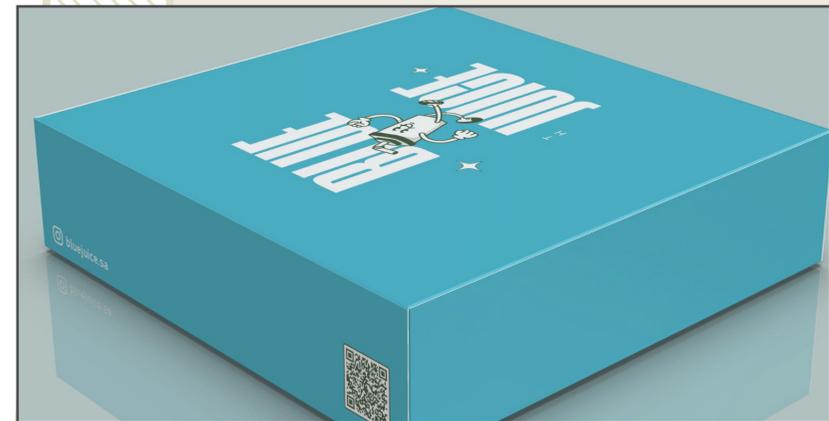

Box Styles and Designs

Connected: A uniform, continuous design that facilitates storage and transportation.

Base & Lid: Consists of two parts (base + lid) to ensure secure closure and maintain the quality of the contents.

Sliding Drawer: An innovative pull-out design that provides a convenient and practical user experience

Tray: A plate-like design for serving food or desserts elegantly, while maintaining ease of use

Technical Specifications for Food & Dessert Boxes

WEIGHT: 300 G FOR HIGH STURDINESS.

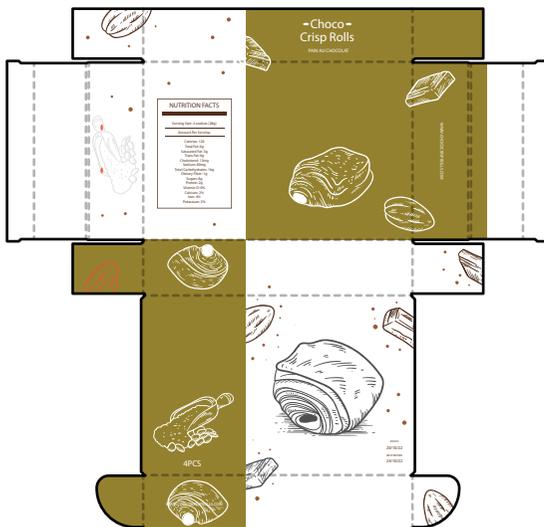

PAPER: SMOOTH WHITE INVERCOTE WITH A LUXURIOUS APPEARANCE.

CELLOPHANE: A LAYER THAT PROVIDES MOISTURE PROTECTION AND ADDS GLOSS.

PRINTING: FULL PRINTING WITH CUSTOMIZABLE LOGOS.

Paper Bags

Paper bags are an eco-friendly and elegant choice for packaging and transporting products, especially in the restaurant, café, and bakery sectors. They provide an excellent alternative to plastic bags due to their biodegradability and attractive appearance, which enhances brand identity.

Material: High-quality Kraft paper or white paper, providing strength and durability to handle various weights.

Dimensions: Available in various sizes to suit different uses, from fast-food bags to large-sized bags.

Design: Printing and design can be customized to reflect the brand identity.

Styles: Available in multiple types, such as:

Small Bags for Baked Goods and Sweets

Base with handle

Base Without Handle

Bags with handle

Bags Without Handle

Butter and sandwich paper

Sandwich paper is used for wrapping sandwiches and fast food in restaurants and cafés. It helps keep food fresh and safe during transport or serving.

Technical Specifications

Material : made from durable, semi-transparent paper, with the option to add a protective layer that prevents absorption of oils and sauces, maintaining the quality of the food.

Printing: Logos or custom designs for cafés and restaurants can be printed.

Uses: Ideal for wrapping sandwiches, burgers, wraps, and sweets. Helps keep food warm and prevents leakage of liquids.

Food Preservation

Flexible and Easy to Use

Customizable

Stickers

Stickers are an effective tool for personalizing and enhancing the customer experience in cafés and restaurants. They are used to seal boxes and bags, and to decorate cups, containers, packaging, and even bags, contributing to strengthening the brand's visual identity.

Made from high-quality materials, stickers are durable and easy to use. They are available in various shapes and sizes and can be customized with logos, promotional messages, or unique designs that suit the ambiance of the venue. Stickers also help improve customer communication by displaying information such as special offers or usage instructions in an attractive and effective way.

Paper Lids

Designed to ensure a safe and comfortable drinking experience, paper lids provide a secure closure that prevents spills.

Printed paper lids allow for a distinctive visual identity on cups by featuring the brand logo or marketing design directly on the lid. The printing is executed with high quality, ensuring clear and stable colors while maintaining the lid's resistance to heat and moisture.

Printed paper lids are an ideal choice for coffee and beverage brands aiming to enhance the customer experience and maintain a consistent look across all serving points.

- **Sizes:**

paper lids 12oz, 10oz, 9oz

Plastic Lids

Plastic lids are made from Polypropylene (PP5), a highly reliable material widely used in the food industry due to its excellent heat resistance, lightweight, and ability to provide a secure closure that prevents spills.

PP5 lids feature suitable rigidity for daily use, do not react with hot or cold beverages, and maintain their shape during transport and storage. This material is an ideal choice for coffee cups, juices, and other quick-serve beverages.

Printed Cup Holder

The printed cup holder enhances any serving experience, from the customer's first impression to the moment of receipt.

It comes in multiple designs to suit various sizes and uses, including specialized holders for espresso cups with desserts, providing a polished and complete presentation that reflects the brand identity.

Available in a variety of styles to meet the needs of cafés, coffee shop chains, and delivery products—each designed to ensure excellent stability during transport while enhancing the overall appearance of the package.

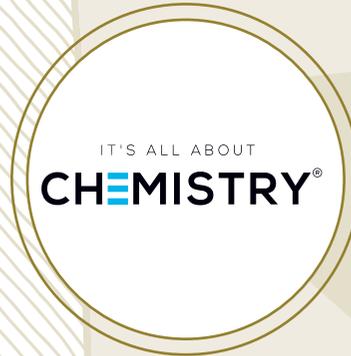

Paper Pudding Box

An elegantly designed paper pudding box that reflects product quality and enhances the serving experience. Made from food-safe, sturdy paper that maintains the shape and stability of the dessert, it offers a sophisticated presentation that highlights layers and details attractively. The box is also printable to showcase your brand identity with every serving.

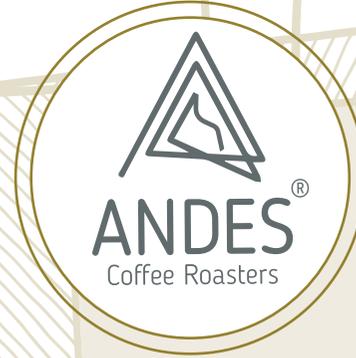

Ideal for cafés, restaurants, and quick service hospitality solutions.
